

\$246,000 to the building. The certificate covers the entire acquisition. The corporation elects to take amortization deductions with respect to the facility and to begin the 60-month amortization period with the taxable year 1955. Depreciation of the building in the amount of \$6,000 is deducted and allowed for the taxable year 1954. On March 25, 1956, the corporation files notice with the district director of its election to discontinue the amortization deductions beginning with the month of April 1956. The adjusted basis of the facility on January 31, 1955, is \$300,000, or the cost of the facility (\$306,000) less the depreciation allowed for 1954 (\$6,000). The amortization deductions for the taxable year 1955 and the months of January, February, and March 1956, amount to \$75,000, or \$5,000 per month for 15 months. Since, at the beginning of the amortization period (January 1, 1955), the adjusted basis of the land (\$60,000) is one-fifth of the adjusted basis of the entire facility (\$300,000) and since there are no adjustments to basis other than on account of amortization during the period, the adjusted basis of the land should be reduced by \$15,000, or one-fifth of the entire amortization deduction, and the adjusted basis of the building should be reduced by \$60,000, or four-fifths of the entire amortization deduction. Accordingly, the adjusted basis of the facility as of April 1, 1956, is \$225,000, of which \$180,000 is allocable to the building for the purpose of depreciation deductions under section 167, and \$45,000 is allocable to the land.

#### § 1.168A-4 Definitions.

As used in the regulations under section 168, the term—

(a) "Certifying authority" means the certifying authority designated by the President by Executive order.

(b) "Emergency facility" means any facility, land, building, machinery, or equipment, or any part thereof, the acquisition of which occurred after December 31, 1949, or the construction, reconstruction, erection, or installation of which was completed after such date, and with respect to which a certificate under section 168(e) has been made. In the case of an application for a certificate under section 168(e) which is filed after March 23, 1951, only the part of any such facility which is constructed, reconstructed, erected, or installed by any person not earlier than six months prior to the filing of such application, and which is certified in accordance with section 168(e), shall be

deemed to be an emergency facility, notwithstanding that the other part of such facility was constructed, reconstructed, erected, or installed earlier than six months prior to the filing of such application. However, if the facility is one described in section 168(e)(2)(C) and the application was filed after September 1, 1958, and on or before December 2, 1958, the preceding sentence shall not apply. The term "emergency facility," as so defined, may include, among other things, improvements of land, such as the construction of roads, bridges, and airstrips, and the dredging of channels.

(c) "Emergency period" means the period beginning on January 1, 1950, and ending on the date on which the President proclaims that the utilization of a substantial portion of the certified emergency facilities is no longer required in the interest of national defense.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960. Redesignated by T.D. 8116, 51 FR 46619, Dec. 24, 1986]

#### § 1.168A-5 Adjusted basis of emergency facility.

(a) *In general.* (1) The adjusted basis of an emergency facility for the purpose of computing the amortization deduction may differ from what would otherwise constitute the adjusted basis of such emergency facility in that it shall be the adjusted basis for determining gain (see Part II (section 1011 and following), Subchapter 0, Chapter 1 of the Code) and in that it may be only a portion of what would otherwise constitute the adjusted basis. It will be only a portion of such other adjusted basis if only a portion of the basis (unadjusted) is attributable to certified construction, reconstruction, erection, installation, or acquisition taking place after December 31, 1949. Also, it will be only a portion of what would otherwise constitute the adjusted basis of the emergency facility if only a portion of the basis (unadjusted) is certified as attributable to defense purposes or, in the case of a certification after August 22, 1957, if only a portion of the basis (unadjusted) is certified as attributable to the national defense program. It is therefore necessary first to determine the unadjusted basis of
